

Marine Biological Laboratory Woods Hole, USA

Lead Scientist

Dr. David Patterson (dpatterson@mbl.edu)

Role in PLANKTON*NET

The team at the MBL has in the past been responsible for developing the first core software for PLANKTON*NET known as [MICRO*SCOPE](#) environment. The MBL still hosts the MICRO*SCOPE environment which will become part of [EoL](#) in the near future.

Plankton*net and the MBL teams continue to work co-operatively in the development of software and content in the EoL framework.
